DEATH CLAIMS A NUMBER OF PERSONS

THE CALL COMES INSTANTLY TO FOUR MEN IN THIS LIST.

Isaac Sexton.
The aged citizen named above, died suddenly Tuesday night at his home near Cherokee.

Mrs. Clevinger.
The body of Mrs. Clevinger, who died in Riverside hospital, this city, was taken Sunday evening to her home near Heller for burial.

Sam Pison.
The funeral of Sam Pison, whose death occurred at Ferguson, West Va., was held last Sunday. Paralysis caused his death. He was a brother of Jas. Pison of this city.

Mrs. Sarah Belcher.
Mrs. Sarah Belcher, a good woman aged 84, died at Hubbardtown, West Va., Tuesday night. She was the widow of Jeff Belcher and is survived by six daughters and one son.

Mrs. John T. Butler.
The widow of John T. Butler died at her home at Cherokee Monday and was buried Wednesday. She was a sister of Postmaster Robert Dixon, of Louisa, who attended the funeral. Mrs. Butler was 75 years old. She fell on the ice during the winter and broke a hip, and this, added to feeble health, caused her death. Five sons and one daughter survive. Her husband died eight years ago. She was an excellent woman.

W. A. Chapman.
At Patrick last Sunday W. A. Chapman died suddenly while talking to Dr. W. W. Wray, who had been called to see him. He was telling about swooning the day before, and suddenly fell over dead. The body was taken to Gallop Tuesday, where the funeral service was held and interment made in a burial ground where his parents lie. Rev. A. Preston preached the funeral.

Mr. Chapman was 69 years old. The county did not have a better citizen. No word of discredit may truthfully be spoken of him. The death of such a man is always a loss to community. A wife survives him, but no children. He leaves one brother, N. B. Chapman of Louisa and one sister, Mrs. Julia Waterson.

Sam J. Crum.

Sam J. Crum, clerk of Wayne-co., W. Va., died suddenly last Friday afternoon at his farm near Crum, West Va. He had been buying cattle and was returning home and his death was with him at the time. It is said he had been told by physicians of the condition of his heart and that he could live only a few weeks. Since that time his wife had accompanied him constantly. The burial took place at Crum. Besides his wife he is survived by five children. His wife was Miss Myrtle Vinson daughter of Dan Vinson of Lawrence county. Mr. Crum had served as Sheriff of Wayne county. His death creates a vacancy in the clerkship and it is thought his brother Lat will be appointed.

AGED CITIZEN DIES.

J. K. Chadwick died Monday of heart trouble at his home near Cadmus. He was nearly 74 years old and is survived by his wife, two sons and two daughters. T. H. and Wm. Chadwick of Cadmus, Mrs. J. M. Webb of Overland and Mrs. M. V. Thompson of Dennis. The funeral services were held Wednesday at his home.

Mr. Chadwick was in good health as usual up to the time of his death. He has been out on the farm the same day and retired at the usual hour feeling quite well. About 11 o'clock at night he raised up in bed and told his wife that he had a pain in the region of his heart and immediately fell back and expired.

Mr. Chadwick was a good citizen and a Veteran of the Civil war, having served in the Union army.

Road Meeting at Buchanan

A meeting will be held at Buchanan Wednesday, March 27, to discuss the plans for rebuilding the road from Louisa to the Boyd county line. Meeting will begin upon arrival of the 10:30 a. m. train. Everybody invited. A delegation will go from Louisa.

Much encouragement is being received from citizens in the way of subscriptions and contributed work. The plan is entirely feasible and can be put through if the people will do their bit.

PATRIOTIC MEETING.

At the court house in Louisa on March 29 a patriotic and educational rally will be held, and everybody is urged to attend. It will do you all good to get into the spirit of the present critical situation and such speakers as will be here are prepared to give much valuable information and to keep you in position to do the proper things right along.

Among the speakers on this occasion will be State Superintendent of Public Instruction V. O. Gilbert and Congressman John W. Langley.

Let's make this a big occasion. The day is Friday, March 29.

BOOKS FOR OUR SOLDIERS AND SAILORS

The American Library Association is conducting a campaign throughout our country to collect books for the soldiers and sailors. The director of the Woman's Committee of the Council of National Defense has asked the Lawrence county council to co-operate in this movement. Hundreds of thousands of them are needed for the War Service Libraries, maintained by the American Library Association at cantonments, training camps, posts, forts, naval vessels and overseas. Our men must have these books they are eager to read. Pass on to the boys in Khaki the books you have enjoyed, give them a chance to spend their leisure hours reading interesting books.

You can send novels, tales of adventure, standard fiction, up-to-date books on civil, mechanical and electrical engineering, books of travel, history, biography, poetry and recent books on military subjects and the present war and interesting books in foreign languages.

If you have a book to give, please leave it at the Red Cross room, County Superintendent's office or if by mail direct to me.

MAUDE SMITH,
Chairman of Lawrence County Council of National Defense.

FINAL NOTICE TO REPORT FOR PHYSICAL EXAMINATION

Final notice to all registrants in class 1, those who for any cause were unable to report for physical examination under last two calls, was sent out Thursday, March 14, by local board for Lawrence county, fixing the time of this final examination on March 23. Those who fail to report at that time, whether they receive their notice or not, will be reported to the proper authorities.

It is therefore important that all registrants in class 1, and who have not yet been examined, take notice of this date and report to the local board for physical examination March 23, 1918. If it shall happen that any registrant is away from home, his friends should advise him of the date fixed for this final examination.

BAKER IS INSPIRED BY VAST WORK IN FRANCE

"While we are busy at home," said Newton D. Baker, the American Secretary of War, in a talk to officers at the American Staff School in France, March 17, "with our industrial preparations and training of troops, our hearts are transplanted to France. My visit has brought me a great uplift in spirit. As a boy takes apart a watch to see how it is made in order to understand the functions of its parts, I have been taking this army apart."

Annual Y. M. C. A. Meeting

The Y. M. C. A. organization in Kentucky held its annual meeting in Louisville last Thursday and Friday and in a store building. His wife was with him at the time. It is said he had been told by physicians of the condition of his heart and that he could live only a few weeks. Since that time his wife had accompanied him constantly. The burial took place at Crum. Besides his wife he is survived by five children. His wife was Miss Myrtle Vinson daughter of Dan Vinson of Lawrence county. Mr. Crum had served as Sheriff of Wayne county. His death creates a vacancy in the clerkship and it is thought his brother Lat will be appointed.

There were a number of able addresses. An extension of plans was made and the work will expand right along. More counties were represented than ever before in a State meeting. Eastern Kentucky had a number of delegates present for the first time. Boyd county was represented by L. P. Zerfass, Mr. Nicholas, George Parks and E. B. Hager, Johnson county by Mr. Thomas, a prominent coal operator. Lawrence by S. J. Picklesimer and M. F. Conley. Southeastern Kentucky also had some delegates present. A banquet was served on Thursday night at the Seelbach Hotel.

ALIEN ENEMIES FROM WEST VIRGINIA COAL FIELDS

Because they came to Cincinnati without a permit from the Postmaster at Sprigg, W. Va., where they registered last month as German alien enemies, Oscar Horzing, 41 years old, and August Yeager, 37 years old, were arrested by United States Marshal Michael Devanney yesterday and will be detained pending orders from the department at Washington as to their internment for the period of the war. Horzing served in the German navy and Yeager was in the German army, it is said. Chief Deputy United States Marshal Counts said both men admitted they left Sprigg, W. Va., after the Postmaster there had forbidden them to do so.—Cincinnati Enquirer.

MILL TO BE RE-SOLD.

The Big Sandy Milling company real estate and equipment was offered for sale publicly last Monday and the highest bid was ten thousand dollars. The bidder failed to give bond, and the next bidder also decline to give bond because of some question about the regularity of the sale. It will be offered again by the Master Commissioner at county court day in April.

M. E. C. S. BAZAAR.

The ladies of the M. E. Church, South, announce that on the Friday and Saturday before Easter they will hold the Easter bazaar in the basement of the new church. TURN UP YOUR TIMEPIECES ONE HOUR

CONGRESS PASSES LAW TO ADVANCE TIME ONE HOUR
MARCH 31.

Washington, D. C., March 20.—The daylight savings bill which goes into effect at 2 a. m., March 31, and sets the clocks of the country forward one hour, has been signed by President Wilson, thus becoming a law.

The daylight saving plan will be observed without the slightest disorganization or impairment of existing conditions. Trains will run as usual and every feature of daily life into which the element of time enters, will remain unchanged.

Before retiring on the last Saturday of this month, the American householder will set his clock one hour ahead and then may go to sleep and forget entirely about daylight saving until the last Saturday in October. On that date he will reverse the process, turning back the hands of the clock an hour and the next day the Nation again will run on "sun time."

In the summer the American man actually will rise, transact his business and retire all an hour earlier than has been his custom, but with his clock an hour fast he will not know the difference. An hour of daylight thus will be conserved in the afternoon.

The plan's practicability and efficiency have been effectively demonstrated in twelve European countries.

SMALL SUPPLY OF SEED CORN AVAILABLE

After making a careful survey of the State of Kentucky, Dr. Fred Mutchler, director of extension work of the University of Kentucky, at Lexington, has been able to locate a limited supply of seed corn in the western part of the State. All people who are in need of seed corn can obtain same by communicating with Dr. Mutchler at the University of Kentucky, Lexington, Ky., by telephone or long distance telephone. The supply is limited and, as we understand the price is very reasonable, it will require quick action to obtain this corn before it is bought by other States in the Union. FRED M. SACKETT, Federal Food Administrator for Kentucky.

NEGRO SOLDIERS TO GO TO CAMP.

Three thousand negroes are expected to report at Camp Zachary Taylor, beginning March 29 and continuing for five days thereafter. They will come from Kentucky, Illinois and Indiana. Sixteen hundred and fifty will be the number from Kentucky. This will raise the population of the camp to more than 30,000 men and officers.

It is planned to place all of the negroes in a separate area, where they will be kept to themselves. They will pass through the same periods of training and examinations as the white soldiers have.

They will be commanded by white officers, with the exception of the non-commissioned officers, who in most cases will be negroes.

PRAISE FOR WILSON.

London, March 13.—The Manchester Guardian praising President Wilson's message to the all-Russian congress of Soviets today, said:

"Once more President Wilson has intervened to correct the diplomatic errors of America's allies, seizing the occasion to send a most cordial message to the Russian Soviets. Why, when any new issue arises, should all that is generous and statesmanlike come from the other side of the ocean?"

He was returned to Wayne county for trial. Ruffner is charged, in a warrant sworn out by Lallance, with attacking his automobile. He claims the brick, alleged to have been thrown by Ruffner, struck Mrs. Lallance and seriously injured her.

VALUABLE SUGGESTIONS TO ALL THE FARMERS

COMMUNICATION FROM MR. VARNNEY, THE DISTRICT AGRICULTURAL AGENT.

Louisa, Ky., March 20, 1918.

To the farmers of Lawrence county:—I hope you will not consider me impertinent when I offer the following suggestions for your benefit during the present crop year. Labor on any large scale is out of the question. We could not pay the prices if we could get it and live, so we must make the best out of the situation.

1. Strive to produce a great crop of such food plants as take as little work as possible—potatoes, beans, etc.
2. Land owners who have tenants should encourage them to grow large quantities of all kinds of vegetables and to care for it when it is produced by putting up for winter.
3. Every family should keep enough hogs to make meat for the year. Begin in time to purchase pigs for this purpose if you do not have them.
4. Grow a heavy crop of sorghum to take the place of sugar.
5. Each housewife should run her poultry business as heavy as possible, including chickens, turkeys, ducks and geese.
6. Let each boy grow a pig extra for the money it will bring him as well as the patriotic service it will render the country. Let the little girls grow poultry for the same reason.

Each school district ought to have a meeting and see what arrangements can be made about exchanging labor on the order of John Hill, and Bill help John. By watching out for this much good could be done. Exchange team labor so as to keep all teams busy will also do much good. Men who refuse to keep busy should receive public contempt.

Meetings should be held as above at least once a month, and often if need be. The local trustee could act as leader as could the teacher. The county agent will attend as many of these meetings as possible and render any assistance he can.

Ministers of the gospel can render valuable service by insisting on his congregation practicing co-operation among themselves. It is religious as well as humanitarian.

Lodges can also do something along this line if there are any in the county and this will prove their claim to what they preach of brotherhood and fraternity. All can help and friend ship, love and truth are the very things for which the Kaiser does not stand.

K. L. VARNNEY, District Agent.

TO FARMERS HAVING WHEAT.

The following telegram was received to-day from Mr. Hoover:

"In order that we may comply with the urgent demands of the Allies for wheat and at the same time, take care of our own domestic supplies, we urgently need this year an earlier and more complete marketing of the wheat in farmers' hands than usual. The Allies are taking from us fifty per cent of other cereals than wheat to mix in their bread. Inasmuch as the people in allied countries, and the soldiers, must be fed with bread baked in bakeries, it is impossible for them to prepare bread made wholly out of other cereals and we must furnish them with sufficient wheat to maintain their bakery loaf. I, therefore, appeal to all of the farmers in the State of Kentucky that they shall bring all of their wheat, except their necessary reserves for seed to market before May 1. This is a war call and a service for Uncle Sam who is fighting for his life. If your local miller is unable to buy all the wheat that is offered, market it in the other customary trade channels through which it will reach the food Administration Grain Corporation."

FRED M. SACKETT.

Marriage of a Louisa Girl

Miss Oneita Austin and Mr. Ernest Bowers were married at Ironton March 9. Louisa relatives were not informed of the fact until the happy couple arrived here Wednesday evening for a brief visit. They were accompanied to Ironton by relatives from Portsmouth, who witnessed the important event.

The bride is unusually pretty and bright, and a most deserving young lady in every way. She is a daughter of Mr. and Mrs. W. F. Austin of this county, and a niece of Mrs. W. M. Justice of Louisa. Mr. Bowers is a salesman for the Leavering coffee company. His home is at Roanoke, Va., and he comes most highly recommended. The courtship has extended over a period of nearly two years and the couple decided to slip away and have a quiet wedding.

Mr. Bowers, has headquarters at Charleston, but plans to move to Huntington. He and his bride went from here to Charleston.

L. O. Lear, the fireman, died within half an hour. Engineer E. S. Jones and brakeman R. G. Roberts recovered after treatment. The three men were from Lexington.

Mr. Fogg practiced law in Paintsville for a number of years and was one of the most influential politicians in the Kentucky mountains. He was a prominent Democrat.

He is survived by his wife, Mrs. Laura Fogg and one son, O'Rear Fogg, and three daughters, Mrs. J. D. Serena, Misses Ethel and Mattie Fogg, and one brother, Harvey Fogg.

The body was taken to Mt. Sterling Monday for burial in the Mt. Sterling cemetery. The services at the grave were under the auspices of the Knights Templar order of which he was a member.

HAS INVENTED AN AERIAL TORPEDO

A Louisville man claims the invention of an "aerial torpedo" that he says will carry death and destruction into the very heart of Germany.

He is E. A. Barre, a mechanic. His plans, specifications and claim have been registered at the Patent Office in Washington.

Mr. Barre says he has worked on his invention for six months, and only recently tried out the invention in Jefferson-co., and found it successful. He has been notified by his attorney that the War Department looks with favor upon the invention.

In explaining his claim, Mr. Barre says it combines a torpedo and aeroplane, and has the same effect as the torpedo in the water, only it goes thru the air.

The distance the torpedo can travel depends upon the weight and size of the plane. The explosive is placed at one end, which connects with a delicate firing pin that will set the charge off at the slightest jar or contact. The engine is the most expensive part of the machine. It is run by gasoline.

State Board Raises Values

The State Board of Equalization raised valuations of Lawrence county \$975,000, which amounts to a 20 per cent increase. J. H. Ekers and R. C. McClure went to Frankfort and succeeded in getting this reduced about \$300,000, leaving about a 12 per cent raise added to our property. This makes a larger increase. In view of the fact that our property as given to the Assessor totaled \$4,512,000 as against \$3,556,000 last year.

\$500,000 of the increase is on real estate, \$150,000 on personal property and \$25,000 on town lots.

PRICE OF BREAD FIXED BY U. S.

The Federal Food Administration for Kentucky has given careful consideration to the request of bakers for an increase in the price of bread. After examining detailed statements submitted showing manufacturing cost and increased cost of flour and substitutes (some substitutes costing more than wheat flour) has decided that under the present conditions the request is reasonable and an increase in the price of bread is justifiable.

Effective Monday, March 18, and until further notice, the wholesale price of the 16 oz. loaf of bread, unwrapped, will be 8c; wrapped, 8½c. The retail price will be 10c either wrapped or unwrapped, or two loaves for 19c.

Attention has been brought to the fact that certain bakers in Indiana and Ohio are attempting to ship bread into this State and obtain a higher price than the one above mentioned. Please warn all the bakers and handlers of bread in your community that any person buying bread at a higher wholesale price than the one mentioned above and selling it at a higher retail price than the one mentioned above, shall be considered guilty of engaging in unfair practice and will be subject to the penalties of the United States Food Law. Please do not fail to bring this fact before your dealers and bakers and have it clearly understood by them.

FRED M. SACKETT, Federal Food Administrator for Ky.

400 HORSES DEAD.

Covington, Ky., March 16.—The toll of dead horses, part of a shipment of 726 government animals from Camp Grant, Ill., bound for an Atlantic port, tonight reached approximately 400, and veterinarians, it is said, have no hope of saving the remainder. It is believed here that the death of the animals was brought about by a carefully arranged poison plot. Already the loss to the government approximates \$88,000.

ELAM CONVICTED.

At West Liberty Gardner Elam, 17 years old, was tried at the term of court just ended for the killing of Cephar Hollon, 12 years old, at Cannel City, December 25, 1916.

He was found guilty and sentenced to serve a term of four years in the reformatory.

CITIZENS OF WAYNE VOTE FOR BONDS

GREAT ISSUE TO BE SETTLED BY BALLOT ON FRIDAY OF NEXT WEEK.

Wayne county citizens will make a grave mistake if they fail to vote for the big bond issue on March 29.

About the only objection we have heard is the statement that an alleged "gang" at Wayne will gobble the money. Without investigating the charge or arguing the point we call your attention to the fact that this bond issue must be expended as directed by State and U. S. Government officials and there will be no chance for local people to squander or gobble the money, even if they so desire. If they are guilty of this sort of thing it is with the funds under the old system, where neither State nor government has supervision. Here is the first chance you have ever had to take all road funds out of local hands. The man who makes the complaint above referred to is therefore the first man who should vote for the proposition. In any event, the best results are always secured where there is State and National supervision. So if you want roads and want the money spent right and honestly, go to the polls and vote for this issue. You may be assured that no local grafter will vote for it.

Others say they are afraid the roads will not be built along their farms. This may be true of farms located in obscure places but the good roads will reach as near as you can reasonably expect and so near that you will be a hundred times better off, than under present conditions. It is a narrow view that will cause a man so situated to make this mistake. Two million dollars will cover the county with main roads and the connecting roads would follow a little later. Wayne gets \$133,000 this year from the corporations and railroads alone, and the other taxes ran the total well above \$200,000. For comparison we mention that Lawrence-co., Ky., collects only a little over \$30,000 a year from all sources for all county purposes. So you can see how well able Wayne is to take care of a million dollar bond issue, especially when she receives another million along with it that she can not get in any other way.

Citizens of Wayne wake up to your opportunity. It is the greatest ever presented. The money can not be stolen, grafted, nor wasted.

NEGROES CAUGHT WITH A SURPLUS OF WHISKY

Robert Thomas, a negro known as "Poor Boy," was fined \$50 in Police Court in Louisa Friday for having more whisky than the law allows. Also, he and other spectators who like to wet their whistles with the vile stuff were compelled to agonize while officials poured out on the ground the contents of 25 bottles.

On Wednesday evening Mayor Augustus Snyder caught Hugh Bentley, colored, carrying a very heavy suit case. Hugh said he didn't know what was in it, and then the Mayor opened it. 23 pints of whisky and two bottles of beer explained the great weight of the suit case. Hugh said he was carrying it for "Poor Boy" and the Mayor relieved Hugh of the awful load and told him Poor Boy could call for it. He came later and both negroes were arrested and placed in separate jails. When the trial came Bentley was released and Thomas paid his own fine. The whisky was poured out of a window.

For several months indications have pointed to Thomas a bootlegger, doing business in the West Virginia coal fields. It is said he brings supplies here from Catlettsburg and crosses to Fort Gay with the whisky, taking the N. & W. train there. He has made frequent trips. He is less likely to be caught by West Virginia officers than if he took on his supplies at Kenosha.

It is thought several cases will be made known as there is every indication of bootlegging here.

Street Paving in Louisa

The City Council of Louisa is seriously considering the proposition of doing some street paving this year on thoroughfares that will get State aid. Under the law it will be possible to get half the cost paid by the State on the route proposed. This starts at the lower end of Lock-av., thence to Main-st., up Main to Lady Washington, south to Madison, west to Pocahontas, south to the point where it joins the county road near Lick creek. This would give us about one and a half miles of paved streets, the citizens paying only one-half the cost.

DIED AT AGE OF 80.

Wm. ("Daddy") Frazier died Thursday of last week at his home near Cannel City, this county. He was 80 years old and is survived by one son and four daughters. W. D. Frazier, Mrs. Roscoe Maynard and Mrs. John Wallace of Catlettsburg. Funeral and burial took place Friday.

EPISCOPAL SERVICES.

Right Rev. Lewis W. Burton, Bishop of the Diocese of Lexington, preached a fine sermon at the court house, this city, last Monday evening, to a good sized audience.

While in Louisa Bishop Burton was entertained in the home of Mrs. Hannah M. Lasky.

BEST FOR LIVER AND BOWELS, FOR BILIOUSNESS, SOUR STOMACH AND CONSTIPATION.

Get a 10-cent box now.

Furred Tongue, Bad Colds, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good, gentle cleansing, too.

Swift & Company Publicity

At a recent hearing of the Federal Trade Commission there was introduced correspondence taken from the private files of Swift & Company, which showed that the Company had been considering for some time an educational advertising campaign.

The need for this publicity has been apparent to us for several years. The gross misrepresentation to which we have recently been subjected has convinced us that we should no longer delay in putting before the public the basic facts of our business, relying on the fair-mindedness of the American people.

The feeling against the American packer is based largely on the belief that the income and well-being of the producer and consumer are adversely affected by the packers' operations, resulting in unreasonably large profits.

Swift & Company's net profit is reasonable, and represents an insignificant factor in the cost of living.

For the fiscal year 1917 the total sales and net profit of Swift & Company were as follows:

Sales
\$875,000,000.

Profits
\$34,650,000.

This is equivalent to a \$3,465. profit on a business of \$87,500.

If Swift & Company had made no profit at all, the cattle raiser would have received only one-eighth of a cent per pound more for his cattle, or the consumer would have saved only one-quarter of a cent per pound on dressed beef.

Our Boys.

Yes, boys will be boys; and why should they not? Now, a boy should go to school, but there is no particular pleasure in that, for fun he wants and fun he will have. Your boy should always be nice and clean; it makes him look well—but even that does not satisfy his frisky nature. A boy should go to meeting once or twice during the week; but, good as he is, he will crave for pleasure. We love a boy with a merry twinkle in his eye; he looks so cunning; and, besides, he will weed all the spirit of a young colt before he gets through the world. If properly trained it will be to him what steam is to an engine. Did it ever occur to you to turn boy yourself and lay aside your dignified airs? Try it. Play with them; sing with them; and, when night comes you can pray with them with a result you little dreamed of. If they can always have more pleasure with you than anybody else you will always know where they are. Did you ever notice how the older animals play with their young? It looks funny you will admit. We have often laughed at an old stiff-legged horse playing with a colt and what a queer game of "tag" it was; the baby horse beat every time, but the little one always kept close to its mother, and was never heard to neigh. Parents, take a lesson and it will be possible to know where the "wandering boys are tonight."

The Boy's Shadow.

Recently the mother of a boy who is about twelve years of age made complaint before the judge that her son was unruly and she feared he was associating with company that in the end would bring disgrace to him and her. The judge told the son to step near him, and in a pleasant tone of voice said, pointing to the parent: "Boy, there is the only true friend you have; obey her. Let me impress this on your mind; think of it; remember it! Whatever shadow you cast in life will follow you as long as you live and always keep up to you. That is your reputation. It is always in sight and just your size exactly, and how proud and happy it will make your fond mother if you will stop going with bad youths and stand in such a position in the sunlight of heaven that your shadow will always be on the one side of honesty and respectability. Go home this time with your mother, turn over a new leaf and prevent the law from sending you to the reform school." Golden words. No more pertinent truth was ever more aptly spoken; no wiser counsel ever proffered by mortal lips. Your reputation in your community is your shadow. It is exactly your size, and you can never get away from it; though you may flee a thousand miles of a cloudy day, the moment you show yourself in public your shadow is at your side. Your habits and modes of thought have left their imprint upon your features, unconsciously controlling your speech and action, and dissembling as much as you may, are constantly signalling from behind the mask that you are not what you pretend to be.

Home And Sunshine.

In view of the fact that home touches and lives in all hearts great care should be exercised in making it a cheerful and sunny place. The plant that lives in the shade is sickly and unsightly. The animal of darkness is restless, troublesome and fierce. And what is there worse than a sickly, unsightly plant, or a wild ravenous heart? Nothing but the sun whose home has been cold, stormy and cheerless, with sun shut out until everything above him is black, every room a swamp, every picture a funeral procession, with hearse and casket moving silently through the streets. These have a place and have a purpose. But a murmuring, fainting man is the worst thing nature ever ordered or produced. Never happy, never allowing others to be happy in his presence. He carries a face as cheerless as a tombstone, and as gloomy as heaven's arch in a thunder storm, minus the lightning. His presence is like a discordant organ ground by the hand of fate; he drives a hearse through every social gathering, hangs pictures of gloom on the walls of home and hastens the death of the sick. We are provoked to sing in his presence the song of the painter Bilas.

"Go bury thy sorrow, the world has its share;
Go bury it deeply, so hide it with care,
Go bury thy sorrow, let others be blessed,
Go give the world sunshine, tell Jesus the rest."

THE HEN THAT LAYS

Is the hen that pays. If she does not lay, kill her, but before you kill her give her B. A. Thomas' Poultry Remedy twice a day for a week, and then you will not kill her for she will be paying you a profit. It not only makes hens lay but it is a remedy for Cholera, roup and Gapes. We guarantee it to cure or we refund your money.—"For Sale By All Good Dealers." 1-1-3mo.

GIRLS! DRAW A MOIST CLOTH THROUGH HAIR. DOUBLE ITS BEAUTY

TRY THIS! HAIR GETS THICK, GLOSSY, WAVY AND BEAUTIFUL AT ONCE.

Immediate?—Yes! Certain?—That's the joy of it. Your hair becomes light, wavy, fluffy, abundant and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a small bottle of Knowlton's Danderine from any drug store or toilet counter for a few cents.

River improvement is again a live subject and should be vigorously pushed. The railroads are unable to handle anything near the traffic needed in this valley or along the Ohio or Mississippi.

The third liberty loan is coming right away. April 6 will be the starting date. It will require sacrifices on the part of the people to make this large loan, but it is our duty and we believe the demand will be met.

A legislative re-districting bill has been passed by the Kentucky Legislature, giving the Republicans more districts. Lawrence and Elliott are put together in a legislative district. Lawrence goes in with Boyd, Johnson and Martin in a Senatorial district. Our representative, B. H. Harris, contended that Lawrence should have a representative by itself.

What "Comrade" Means in War.

A writer in the April American Magazine says:

"I saw one man coming whose trousers had been torn clean away. He was so caked with mud and blood that his features were almost unrecognizable. He did not walk. He staggered from side to side. Sometimes he almost fell. But on his back he carried his comrade, his pal, who couldn't walk himself."

"I looked at them, and the tears came to my eyes—as they would come to the eyes of any man if he could watch these walking wounded. But those two? No tears from them! They looked at me—and smiled."
"It isn't only for their comrades that they are willing to suffer. Over and over again I have seen an English Tom my, badly wounded himself, take the cup of hot soup, or coffee, or the tobacco our Y. M. C. A. men were handing out, and give it to a wounded German."

GRACEFUL COAT OF TAFFETA

We may go to what lengths we will in coats of taffeta—there is plenty of silk within reach and, so far, no ban on using it. A handsome long coat of gracious cut and graceful lines is shown in the picture, embellished with a rich embroidery, which is put on in bands across the wide collar and about the sides and back above the hem. In the back it conceals its fullness by deep inverted plait, but in the front seems to dissemble and is frankly full.

WOMEN TORTURED

Suffer terribly with corns because of high heels, but why care now.

Women wear high heels which buckle up their toes and they suffer terribly from corns. Women then proceed to trim these pests, seeking relief, but they hardly realize the terrible danger from infection, says a Cincinnati authority.

Corns can easily be lifted out with the fingers if you will get from any drug store a quarter of an ounce of a drug called freezone. This is sufficient to remove every hard or soft corn or callous from one's feet. You simply apply a few drops directly upon the tender, aching corn or callous. The soreness is relieved at once and soon the entire corn or callous, root and all lifts out without one particle of pain. This freezone is a stick substance which dries in a moment. It just shrivels up the corn without inflaming or even irritating the surrounding tissue or skin. Tell your wife about this.

"Over the Top With the Best of Luck and Give Them Hell!"

OVER THE TOP

BY
Serg't Arthur Guy Empey

Serg't Empey's vivid and gripping story of the great war will be printed in installments in this paper.

Twenty-seven chapters of exciting adventures and heart-stirring action; events that befell this one man from the time he passed from civilian life to take his place in the human wall that stands between civilization and frightfulness.

Serg't Empey is an American who enlisted in the British Army on hearing of the sinking of the "Lusitania." He writes in a straightforward way of his own experiences "over there," of the life in which our own American boys are entering.

DOING REAL FARM WORK DEFERS THE CALL

DRAFTED MEN WORKING STEADILY AND EARNESTLY ON FARMS GET DELAY.

The following instructions have come from headquarters to the Local Board of Lawrence county and will be of interest to many people. It answers questions being asked every day:

The situation arising from the scarcity of farm labor demands that the call to the colors of men actively, completely, and assiduously engaged in the planting and cultivation of a crop and who are in class one should be deferred until the end of the new quota.

The President therefore directs that in filling any emergency call you shall pass the order number of such men and defer their call for the present.

It must be borne in mind that this step is taken solely in the need of the nation and not for the benefit of any individual. Therefore, while boards should consider it a grave duty to exercise this power to conserve and augment the agricultural production, they should observe closely the conduct of these deferred and immediately upon becoming convinced that any person so deferred is not giving his entire time and earnest attention to agricultural duties, or that he is trifling with the deferment thus granted him, the board should forthwith call him to the colors.

All citizens should assist in making this effective and in bringing to the attention of the boards cases meriting deferment, as well as cases in which deferment is being abused.

DAILY WAR REVIEW

WAR NEWS

Representative Fields of Kentucky member of the House Military Committee, introduced a bill to put an end to deception and fraud which he said are being practiced on the beneficiaries of American soldiers killed in the war through claim agencies which are springing up over the country.

"Push the U-boat warfare" is the latest utterance of Admiral von Tirpitz. "In this way," he declares, "Germany can secure a base on the English coast for all time." Hindenburg's "bluff," his warning to the Allies, now is believed to have been made for the purpose of bolstering up public opinion in Germany.

Senator Gore's bill to raise the price of wheat to \$2.50 a bushel for the 1918 crop to boost production was under discussion in the Senate while the Food Administration was making plans to meet the critical wheat shortage by a further reduction in consumption. The Food Administration frankly admits that existing flour stocks are only 30 per cent. of the normal quantity needed until July 1, before which date we are pledged to ship to the Allies 90,000,000 bushels.

American built battle planes will be in France in sufficient numbers to protect American forces by July. This announcement was given out on highest authority. The air programme is now sixty days behind schedule, but it is hoped to rush the work so as to make up for lost time. Representative Kahn, ranking Republican member on the House Military Committee, declared that the plan of taking Congress into the confidence of the War Department would make for team work.

The Russian Congress has agreed to the German peace terms, which include of taking over a large amount of territory and whatever else Germany wants.

Fighting continues at various points along the eastern front in spite of the treaty of peace signed by Germany and the Bolshevik Government in Russia, the fact that Germany considers the convention Lenin and Trotsky were forced to sign as a "scrap of paper" being further evidenced by the announcement that the Huns have reached Jamburg, sixty-eight miles from Petrograd. One clause of the Rumanian treaty bound that country to assist in the transport of German troops on their way to Odessa, indicating that the Central Powers will not forego any conquests they may make in Russia. Turkish troops also are operating on the southern shore of the Black Sea. Announcement was made in Berlin of the signing of a peace treaty between Germany and Finland. Finland agrees to cede no territory nor grant territorial rights to any foreign Power without the previous consent of Germany. Each party renounces compensation for war costs or damages. Negotiations will start forthwith for a trade and shipping treaty. The fortifications of the Aland Island will be removed as speedily as possible and regulations will be adopted for the permanent non-fortification of the islands.

IN THE SPRING

will be the great test of a life and death struggle on the Western front. It is the spring time that brings ill health. One of the chief reasons why the run-down man finds himself in a bad state of health in March or April, is because he has spent nearly all his hours for the past four or five months penned up within the walls of house, factory or office. It is the reason for our diminished resistance—that is, lack of out-door life, coupled with perhaps over-eating, lack of good exercise, insufficient sleep, and constipation. In other words, we keep feeding the furnace with food but do not take out the "clinkers," and our fire does not burn brightly. Always keep the liver active. There is nothing better for health than taking an occasional mild laxative, perhaps once a week; such a one as you can get at any drug store, made up of May-apple, jalap, aloes, (sugar-coated, tiny, easily taken), which has stood the test of fifty years of approval—namely, Dr. Pierce's Pleasant Pellets. But for the "Spring Fever," the general run-down condition, the lack of ambition, the "blues," one should take a course of treatment every spring—such a standard tonic as Dr. Pierce's Golden Medical Discovery, now to be had in tablet form in sixty-cent vials. Watch the people go plodding along the street. There's no spring, no vitality. A vitalizing tonic such as this vegetable extract of Dr. Pierce gives you the power to force yourself into action. The brain responds to the new blood in circulation, and thus you're ready to make a fight against stagnation which holds you in bondage. Try it now! Don't wait! To-day is the day to begin. Gain a little "pep," and laugh and live. Vim and vitality are the natural out-pouring of a healthy body. It does not spring up in a night. Try this spring tonic, and you gain the courage that comes with good health.

GLAD TO TESTIFY

Says Watoga Lady, "As To What Cardui Has Done For Me, So As To Help Others."

Watoga, W. Va.—Mrs. S. W. Gladwell, of this town, says: "When about 15 years of age, I suffered greatly. . . Sometimes would go a month or two, and I had terrible headache, backache, and bearing-down pains, and would just drag and had no appetite. Then . . . it would last . . . two weeks, and was so weakening, and my health was awful.

My mother bought me a bottle of Cardui, and I began to improve after taking the first bottle, so kept it up till I took three. . . I gained, and was well and strong, and I owe it all to Cardui.

I am married now and have 3 children. . . Have never had to have a doctor for female trouble, and just resort to Cardui if I need a tonic. I am glad to testify to what it has done for me, so as to help others."

If you are nervous or weak, have headaches, backaches, or any of the other ailments so common to women, why not give Cardui a trial? Recommended by many physicians. In use over 40 years. Begin taking Cardui today. It may be the very medicine you need.

W. T. HEADLEY BURSTS INTO POETRY AND SONG

The older residents of Louisa, who know genial Tom Headley of Philadelphia, will enjoy the following lines, forced from him by the Muse in celebration of a great event—the arrival of his first grandchild. He sent the verses to Dr. G. W. Wroten, his brother-in-law, and no one will be more surprised than Mr. Headley to see them in print.

Special Attention.

Look here, Doc Wroten, That's some Latin you're quotin' But when writing to me You should finish with Ipsa dixit.

At this auspicious time It is very hard for me to rhyme. Grand Dad's head is in a whirl Caused by the coming of a little girl.

Tom woke us in haste yesterday morn To say that to them a daughter had been born. The time was Wednesday before daylight.

And we were pleased to learn that all was right. The hour to be exact was two a. m. And Grandmother wanted to rush to them.

But I said to her, you crazy goose The show's all over, so what's the use.

She finally concluded my advice to be wise But no mope that night did sleep close her eyes.

At breakfast she could hardly use her fork In her haste to see what had been brought by the stork.

The name I believe is to be Katherine Ann Fifty-fifty for us and Gretta's clan. It looks like all others that have just been born.

Mighty sleepy and tired and all forlorn. But I suppose when she's been fed on milk and cream

We will all say "how cute," and "isn't she a dream." The weather is cold, fuel and fodder are high.

Granddaddy must work so 'that the family can buy. My love I send Mollie And best wishes to you

And trust that this jingle Will not make you blue. Outside of this everything moves in the same old comfortable.

Stop Lively! Corns Quit with "Gels-It"

The Great Corn-Loosener of the Age. Never Fails. Painless.

Watch my step? What's the use? I go along "right side up" without care, even with corns, because I use "Gels-It," the painless, off-like-a-banana-peel corn remover. I tried other ways galore, until I was blue

Corns Simply Can't Stop Us. We use "Gels-It" in the face and red in the toes. No more for me. Use "Gels-It." It never fails. Touch any corn or callus with two drops of "Gels-It," and "Gels-It" does the rest. It's a relief to be able to stop cutting corns, making them bleed, wrapping them up like packages and using sticky tape and salves. It removes any corn clear and clean, leaving the toe as smooth as your palm. You can wear those new shoes without pain, dance and be frisky on your feet. It's great to use "Gels-It." "Gels-It" is sold at all drug stores (you need pay no more than 25 cents a bottle), or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

SUBSCRIPTION PRICE TO BE INCREASED

BIG SANDY NEWS ANNOUNCES NEW RATE AND PROBABLE DATE.

Increased and increasing costs of everything entering into the making of a newspaper have forced us to a conclusion against which we have been fighting for more than a year; and that is, the inevitable necessity of increasing the subscription price of the Big Sandy News to \$1.50 per year. The situation demands either this or a considerable reduction in the size of the paper. We have chosen the former, and instead of reducing the efficiency of the paper we are planning to improve it.

Probably Next Month.

It is our present intention to put the increase into effect sometime in March. Until that time we shall receive subscriptions at the present rate of one dollar per year. Subscribers may pay as far ahead as they desire at the old rate if they do so before the increased price is put into effect.

The Reason Why.

Recently we received notice of a big advance in the cost of a certain quality and color of ink which we use to a considerable extent in our job printing department. The manufacturer said the coloring matter required had advanced one thousand per cent in cost. This is an extreme instance, but there is a general increase all along the line, touching every department of the newspaper and printing business. Therefore, we must do what everybody else is doing—raise the price of our product.

The manufacturer, the merchant, the farmer, the laboring man, the tradesman, the postoffice department, the butcher, the baker and all the rest, are meeting the increased costs by raising prices. They can not do otherwise, neither can we.

The dollar paid us by the farmer a few years ago, bought from three to six times as much farm products as it will buy to-day. Hundreds of weekly newspapers in the United States have raised their price to \$1.50 and \$2.00 during the last year or two, and the list is being added to every day. The daily newspapers of the country have, with few exceptions, increased their prices. Those that sold at one cent now bring two cents. In New York City in January three leading newspapers doubled their selling price.

We believe our patrons will appreciate the effort we have made to keep the price of our paper down and will willingly grant the increase. But in order to be entirely fair to them we are giving advance notice and the privilege of paying ahead at the old rate of one dollar per year.

A SOLDIER WRITES FROM FORT TERRY

Fort Terry, N. Y., March 14, 1918.

To the people of Big Sandy and surrounding country:—As I am in the army will write to the Big Sandy News so my friends will know where I am and how the U. S. boys are spending their time. My home is at Flat Gap, Johnson-co., Ky. I enlisted at Louisa February 22, went to Ashland and stayed there that night. A fellow by the name of Hunt came in that evening and enlisted. We had a good time in town that night and left Ashland the next morning at 4:30 for Columbus, Ohio, via Cincinnati. Arrived in Columbus Saturday evening about 5 o'clock, went out to the barracks. There were about 200 of us, Hunt and I went thru together, stayed together until we got orders to leave on Wednesday. I left Columbus about 1:30 and he went to Texas the same day. There were 50 of us boys in our bunch and we had a lively time coming thru. We came by Cleveland, Ohio, thru Pennsylvania, then the Hudson river. Then into Connecticut, arriving in New London, Conn. about 11:30 Thursday night. Spent the rest of the night there and came on over here Friday morning.

I am on Plum Island, about 25 miles from New London, Conn. We are having some bad weather. It snows one day and rains the next. We haven't drilled much yet. We have received our rifles. There is a fine bunch of men here. The officers are kind to us. I haven't met any one yet but what is liberal and kind. With best regards to all, I remain, BRICE MOORE, 12 Co., Fort Terry, N. Y.

FROM KELLEY FIELD, TEXAS.

South San Antonio, Tex., Mar. 8, 1918.

Editor Big Sandy News:—Thinking the people of Big Sandy would like to hear from the famous flying field here, will mention a few things that are of interest to me and hope will be welcome.

Kelley Field is a large government reservation of many acres. I have been here over a month and I could easily get lost on its many company streets. Kelley is divided into three fields, numbered 1, 2 and 3. Recruits are trained, placed in trade lines, then formed into squadrons, then are ready to be shipped out except a few permanent ones that are to remain here.

To give a conception of the numbers that have chosen aerial service and been sent here I may state that 7000 were sent out one day recently and the casual observer could not detect the vacancies.

The boys are all happy, contented and are quietly, but firmly preparing to crush autocracy, defeat Kaiserism and regain peace for the hitherto endangered civilization.

So come, on boys, don't be denied your right to participate in struggle, and don't wait until you are 21 years old. Two months after I was 18 I came on. Let us be sure that Big Sandy is fully represented "over there."

Good luck to every one.

The Nation's Needs Come First

Any patriotic American would gladly stand aside and give his place—anywhere—to an officer on government duty.

The placing of the Bell telephone system at the disposal of the government, as was done when war broke out, involved the same patriotic obligation.

During the months of military preparedness, the War and Navy Departments had the service of the most comprehensive and efficient telephone system in the world. And it must be kept so. In the face of the unprecedented demand from private sources, every government need must and will be met.

The government comes first, but we are doing everything that science can suggest and that money can accomplish to maintain our general service at the usual standard of efficiency. A loyal organization is working continuously to meet the increased demands and your patient co-operation will prove helpful and inspiring.

Telephone users can help by avoiding useless conversation and by encouraging their employees and associates to use the telephone only when necessary during the busy hours of the day, and to make their conversations brief.

With this patriotic attitude of the public toward us we can serve the government first and render a service that will meet the requirements of the commercial and social world.

Times are hard with us, but I can scarcely afford to do without Peruna, especially during the season of the year when coughs and colds are prevalent. We always recommend Peruna to our neighbors, for the benefit it has been to us."
